

WHAT ARE LEY LINES AND NODES?

We were going to publish this on April Fools' Day, but we thought some people might think it was a joke

We've all heard of the term LEY LINE and the General Public seem perfectly happy with it. But what exactly is a LEY LINE?

The short answer is that no-one knows because everyone who claims to be in the know refuses to use the word LEY LINE and just refers to it as the "The L Word". It's the Dowsing equivalent of blaspheming because it's apparently confusing, open to interpretation and misused. Instead, over the past umpteen years or so Earth Energy Dowzers have diligently come up with alternative names which they claim are much less confusing.

Last year myself (Mave Calvert of the Ridings Dowzers) and David Charman of the Sussex Dowzers amused ourselves by counting up the number of alternative names for a LEY LINE that now exist in the Dowsing world. We may have missed some, it's a bit like counting the number of stones in a stone circle - we lost count when we got past 50. So, if you are one of the Dowzers who have invented an alternative name for a LEY LINE and we have missed it off this list please accept our sincere apologies.

Here we go

Acoustic Line, Aquastat, Attendant, Benker Line, Black Line, Black Stream, Church Line, Coffin Path, Curry Line, Disturbance Line, Dragon Line, Dynamic Energy Line, Earth Energy Current, Earth Energy Dragon Line, Earth Energy Line, ED Line, EE Line, Electromagnetic Line, Emperor Dragon, Energy Cable, Energy Channel, Energy Current, Energy Ley, Energy Line, Fault Line, Fracture Line, Funerary Path, Genesis Ley, Geodetic Line, Geopathic Stress Line, Hartmann Line, Healing Line, Holy Line, Human Intent Line, Light Line, Off-World Line, Outrigger, Overground, Parallel, Planetary Line, Radial, Serpent Line, Sideband, Spirit Line, Shepherd Line, Sound Line, Stress Line, Subsonic Sound Line, Telluric Current, Track Line, Type DC Line, Type M(a) Line, Type M(b) Line, Type M(c) Line, Type MP Line, Type O Line, Type 1 Line, Type 2 Line, Type 3 Line, Type 4(a) Line, Type 4(b) Line, Type 5 Line, Toxic Line, Water Line, Water Vein.

.... However, the one name you'll never hear any self-respecting Earth Energy Dowser utter is LEY LINE. The other 60 odd names for these things are all perfectly acceptable though.

If you want to learn to dowse Earth Energies, all you have to do is get up early and ask your rod or pendulum to take you to the nearest LEY LINE and spend the rest of the day going through the checklist of alternative names to find out what type it is. Then go back home and spend the evening on Google trying to find out which Dowser invented that particular name so you can buy their book and spend the next week reading it to find out what they actually meant by that term. Simple, you'll be an expert in no time!!!

If you are still enthusiastic after all this, you can start looking for the places where LEY LINES cross. Earth Energy Dowzers call these NODES. There are lots of different types of NODES as well. Some involve the LEY LINES going underground and coming back up again a few feet away while others just involve several LEY LINES colliding in mid-air. There are Curry Line Nodes, Hartmann Line Nodes, Hartmann-Curry Line Nodes, Negative Nodes, Positive Nodes, Double Negative Nodes, Double Positive Nodes, Symmetrical Nodes, Asymmetrical Nodes, 1st Order Nodes, 2nd Order Nodes, 3rd Order Nodes and 4th Order Nodes. Apparently, you can make some of these yourself if you are good at knitting, but you have to go on an advanced course for that.

If people tell you that Earth Energies are a minefield where you will trip over LEY LINES and end up falling head-first down NODES, don't believe them. It's all a matter of perspective ...

If you are an ARCHAEOLOGY Dowser LEY LINES are alignments between Archaeological sites and NODES are the sites themselves;

If you are a HEALTH Dowser LEY LINES are the body's Meridians and NODES are the Acupuncture points;

If you are a NATURE Dowser LEY LINES are Gnomes' Fishing Rods and NODES are the Toadstools they sit on to fish;

If you are a SPIRITUAL Dowser LEY LINES are Magical Pathways and NODES are Caves where Dragons emerge from;

If you are a WATER Dowser LEY LINES are Rivers and Streams and NODES are their confluences;

... and if you are an EARTH ENERGY Dowser, Good Luck to you!!!
